

How it Works:

SHRINKS SWOLLEN HEMORRHOID TISSUE

The zinc carbonate (in calamina) has been shown to reduce the size of blood vessels both for internal and external hemorrhoids

REDUCES HEAT AND INFLAMMATION

The borates in Borax, compounds in Bovis Calculus and proteins in Margarita all work to reduce heat and swelling, commonly seen in hemorrhoids

RELIEVES HEMORRHOID PAIN

As heat, swelling and the inflammatory reaction are reduced, the associated pain and discomfort subsides.

CLEAR AWAY TOXINS & REMOVES DECAYED TISSUES

STIMULATES NEW TISSUE GROWTH AND PROMOTES HEALING

ARE THERE ANY SIDE EFFECTS?

As with any medicine, herb or ointment, there is the possibility of allergic reactions including: rash, itching, swelling, dizziness or even difficulty breathing. Do not use this product if you have any known adverse reactions to any of these ingredients. For any adverse or allergic reactions, seek immediate medical attention.

WARNINGS:

For external and/or intrarectal use only. Not for oral use. Avoid spicy or sour food when using this product. If pregnant please consult a health professional. Keep this and all drugs out of reach of children. If bleeding occurs, condition worsens or does not improve within 7 days, stop using this ointment and consult a health professional.

A New Era For Hemorrhoid Relief

Discover an Ancient Chinese Formula in an Easy to Apply Ointment.

Mayinglong Hemorrhoidal Ointment

Ingredients used in Asia since 1582

What are the Ingredients?

Moschus An ancient Chinese Traditional Medicine, it activates blood circulation, reduces swelling while relieving pain. Compounds identified in Moschus include: various steroids, triglycerides, phenols and fatty acids. (1) Originally derived from the Musk deer, a synthetic version is the preferred form.

Borneolum Syntheticum A Traditional Chinese Medicine, abundant in rosemary oil, it is used as a local anesthetic, skin tonic, sedative and antispasmodic.

Borax Containing mineral borates and commonly used in Traditional Chinese Medicine, it clears away heat and remove toxins.

Bovis Calculus Clears heat, removes toxins and contains anti-inflammatory and antioxidant properties. Originally derived from a gallbladder stone found in cattle, today a synthetic version is the preferred form.

Calamina Containing zinc compounds, it is used to relieve pain, itching, irritation and discomfort. As a mild antiseptic, it may prevent infections and as an astringent, it can dry up weeping tissues. Calamina may also reduce the size of blood vessels, being well suited for both internal and external hemorrhoids.

Succinam An antioxidant compound derived from mineralized pine resin, also known as "amber" in Traditional Chinese Medicine, it used topically to promote tissue healing.

Petrolatum Acts like a moisturizer to heal dry, scaly, itch, rough skin and other minor skin irritations.

Margarita (Hyriopsis CumingII) This powdered form of Pearl is used in Traditional Chinese Medicine to heal various skin conditions. Pearls contain proteins, amino acids, trace elements and minerals. Research has demonstrated anti-inflammatory properties and the ability to relieve pain.
